

Local weather. Brought to life.

A living weather window for your desk, with animated scenery, local readings and alerts from the National Weather Service.

PERSONAL WEATHER DISPLAY

FROM DAY TO NIGHT

Lighting follows local sunrise and sunset.

WHEN WEATHER TURNS

Severe and extreme warnings take over.

ACTUAL FIRMWARE RENDERS / SAMPLE CONDITIONS

01 A scene that feels alive

Clouds drift, water ripples, rain falls and snow settles across native pixel art.

02 Local readings, clearly

Measured station temperature and a readable clock. Forecast fallback is clearly labeled.

03 A storm outlook at a glance

An alternate firmware mode counts down to thunderstorm forecast periods within 48 hours.

04 Built to stay connected

Automatic Wi-Fi reconnection and wireless firmware updates with rollback protection.
